
JAMIE BOEING

PROFILE

I am an accomplished and versatile professional with over 10 years of experience in software development. My passion for coding, attention to detail, and creativity make me an exceptional asset for any project. I thrive on facing challenging tasks, continuous learning, and personal growth.

EXPERIENCE

FREELANCE SOFTWARE DEVELOPER | REMOTE | 2023-PRESENT

As a Freelance Software Developer, I bring a year of immersive experience in full-stack web development along with a background in graphic design and a web certification. During this time, I've successfully delivered customized software solution for various clients, focusing on responsive web application development using HTML, CSS, JavaScript, and frameworks like React. I've also gained expertise in server-side applications using Node.js and Django, ensuring smooth functionality and performance. My skills extend to database management, particularly with MongoDB.

My graphic design background, honed through a degree in graphics and web certification, has allowed me to create user-friendly interfaces using Adobe Photoshop, Adobe Illustrator, and Adobe InDesign. I take pride in providing excellent customer service and consultation, collaborating closely with clients to meet project goals and deadlines, while effectively managing project timelines and tasks.

FREELANCE GRAPHIC DESIGN – 2009-2017

During my time as a Freelance Graphic Designer, I honed my creative skills and developed a keen eye for visual aesthetics. I specialized in crafting captivating visual identities, logos, and web designs, helping numerous clients establish a strong online presence. My work extended to preparing files for specialty printing and managing file conversions to ensure the highest quality output. Additionally, I took the lead in providing top-notch customer service and consultations, collaborating closely with clients to understand their unique needs and deliver designs that exceeded their expectations. Utilizing Adobe Creative Suite, including Photoshop, Illustrator, and InDesign, I consistently delivered visually stunning and effective solutions to a wide range of clients.

SALON OWNER | COSMETOLOGIST – 2006-2008

As a Salon Owner and licensed Cosmetologist, I managed daily operations and effectively assigned tasks to ensure a smooth workflow. During my tenure, I created an original and visually appealing interior design for the salon, enhancing the overall customer experience. I also designed custom logos and branding materials, reinforcing the salon's identity and attracting a loyal clientele. My responsibilities extended to marketing, advertising, and communications, where I implemented strategies to increase the salon's visibility and clientele. Additionally, I played a crucial role in fostering customer satisfaction and human resources management. I developed comprehensive business operation documentation and effectively implemented these processes with Adobe Suite tools. My commitment to maintaining an online retail presence and handling all social media accounts contributed to the salon's success. Furthermore, I pursued continued education, including training in diversity, sexual harassment, and domestic violence awareness, ensuring a safe and inclusive salon environment.

EDUCATION

GENERAL ASSEMBLY| IMMERSIVE | REMOTE| 2032

I successfully completed 500+ hours of expert led instruction in Full Stack Web Development. The hands on learning taught me the fundamentals, best practices and the industry's most in demand technologies. GA helped me build problem solving skills for modern applications and a foundation to grow.

JOHNWOOD COMMUNITY COLLEGE| ASSOCIATES IN GRAPHIC DESIGN | WEB CERTIFICATION |QUINCY, IL | 2016

During my time at John Wood Community College, I excelled academically and was recognized for my outstanding performance by earning a place on the Dean's List. This achievement reflects my dedication to academic excellence and my commitment to mastering the skills required for graphic design and web development. Additionally, I actively participated in an academic sorority, further enriching my college experience and allowing me to contribute to a supportive and collaborative community. These experiences not only enhanced my educational journey but also reinforced my passion for design and technology, setting the foundation for my career in freelancing and software development.

SKILLS

My skill set encompasses a diverse range of abilities essential to the field of software development. With immersive training and hands-on experience in full-stack web development, I'm proficient in languages such as JavaScript, HTML, CSS, Python, and PHP. I've worked extensively with frameworks like React, Node.js, and Django to build dynamic and responsive web applications. My expertise extends to database management, particularly with MongoDB.

In addition to my technical skills, I hold a degree in graphic design and possess a deep understanding of Adobe Creative Suite, including Photoshop, Illustrator, and InDesign, which enables me to craft visually appealing and user-friendly interfaces. I also bring project management, customer service, and design sensibilities to the table, rounding out my holistic skill set and making me a versatile and valuable asset for any project.
